to a meeting with James Cline, Counsel, House Judiciary Subcommittee on Immigration, Citizenship and International Law. His problem was what to do with the 1,800 Vietnamese who wanted to go back to Vietnam. His specific interest was whether this feeling was genuine in terms of family consideration, whether there was communist agitation in the camps in Guam, and whether they would be shot if they did go back. I explained the extended family concept in Vietnam and how important it is to each Vietnamese. I said we had some reports that the communists had directed some people to infiltrate the refugee flow for intelligence purposes and that I did not think that the communists would shoot these people once they returned to Vietnam, at least not right away.

Spoke with Daphne Miller, on the staff of the Republican Study Committee. She referred to an earlier request for "a list of Agency documents that could be made available to the public." She was referring to documents released under the DOCEX project of the Library of Congress. I told her I would send her information on this project in the next day or so.

LIAISON Met with James Cline,

Counsel, House Judiciary Subcommittee on Immigration, Citizenship and International Law, in response to his call to Mr. Cary last week inquiring as to whether the Agency had any information concerning the allegations in the press that former Nazis were in Interpol. I told Cline that I made preliminary inquiries and we have no information to support the allegations. I explained that the Agency has no direct relationship with Interpol as this is principally left to the FBI. I told him that should anything develop, I would let him know. This request had been referred to [REDACTED] who had contacted several appropriate offices in the DDO.

[REDACTED] FAA Ralph Preston, Defense Subcommittee, House Appropriations Committee staff, called to advise that he is still having difficulty in arranging a Subcommittee session for a briefing on the Presidential Finding of 10 August 1975 even though Chairman George Mahon (D., Texas), on Saturday, was made aware of the country involved.

[REDACTED] THIRD AGENCY Wheaton Byers, PFIAB staff, called concerning a request Representative Les Aspin (D., Wis.) had made through OMB for a copy of the Clark Task Force Report (the intelligence section of the Hoover Commission Report of 1955). I told Byers I would have someone call him on how we had handled a similar request from the Senate Select Committee. Walt Elder, Review Staff, will call Byers.
